Welcome to the 26th issue of DARCO India Newsletter

Dear Reader,

Since the inception of DARCO Medial India Pvt. Ltd. this quarterly publication provides information to the medical community, institutions and distributors in India working in the field of foot and ankle treatment.

“If you want to build high towers, you have to stay at the foundation for a long time.” (Anton Bruckner, renowned Austrian Composer)

In line with the words of Anton Bruckner, a renowned Austrian composer, DARCO builds solid communication platforms, investing in strong and constant dialogue with the medical community.

Explaining features and benefits of different DARCO products and providing valuable information to foot and ankle specialists in the field is our goal. DARCO is involved in promoting and expanding existing expertise as well as organizing multiple training opportunities which include workshops, symposia and exhibitions. Over the last years this has become a source of information for medical specialists and a platform for mutual exchange in the USA, Germany, UK, China and India. In this issue we would like to introduce our international network to you. Learn more about our hubs and about our company history.

Intercompany exchange of know-how and modern technology in our product design helps us to remain firm on our own two feet. We encourage you to continue reading and visiting our websites for interesting news.

Enjoy reading!

DARCO – Your partner for
professional foot care!

Yours sincerely

Shashi Surpali
CEO DARCO Medical India Pvt. Ltd.

News & Notes

Join DARCO at WUWHS 2020 AbuDhabi, UAE March 8–12, 2020

A wide-ranging scientific program with distinguished experts from around the world is the challenge of this year's WUWHS in Abu Dhabi. “Global Healing. Changing Lives” was developed and serves both the WUWHS 2020 and serves as a catalyst for the wound care professional to share their practice to build new trends and enhance clinical practice. One of the objectives of WUWHS 2020 is to promote collaboration and cooperation of all the Scientific Wound Care Societies around the world who have a passion in dealing with wounds.

DARCO will participate in the world class event under the umbrella of Woundcare-Circle. We invite you to visit our booth and learn more about DARCO's off-loading products.

Please visit the website of the International event for further information:

DARCO International Network

Get to know us better: DARCO Worldwide

One common vision: To improve effective and timely healing of foot injuries. One of the global leaders in the design, manufacture and distribution of innovative products for the foot and ankle community.

From the beginning, DARCO has been driven by a vision to contribute to communities while initiating change among the country's leaders. We work to have our voice heard among medical professionals and physicians who care for people worldwide. In more than 30 years, DARCO has forged relationships built on trust and a mutual desire to improve foot care and to elevate awareness among the people. We propagate valuable information and provide expertise building workshops through the seminars and congresses we attend, as well as integrating value-based services where we can in the country concerned.

“For my father, his greatest professional achievement is that every day he did his best to ease the suffering of those who walked through his door.” (Darrel Darby, CEO of DARCO International: Remarks on the occasion of the DSC Distinguished Service Citation posthumous award in honour of his father Darrel Darby, DPM.)

1985 Dr. H. Darrel Darby, DPM, a practicing podiatrist in Huntington, WV, USA, developed the Darby MedSurg™ Shoe. This post operative shoe built around a semi-rigid sole integrated a new and advanced sports shoe technology for the first time. Since then DARCO distributes innovative products for foot surgery worldwide, introducing standards for postoperative and diabetic foot care. Today our websites reach many in the digital world and every individual can benefit from our experience.

 somewhere in the world
 a foot and ankle specialist prescribes
 a DARCO product.”

Resources and Education

DARCO India Educational Material for our readers!

Numerous studies on the efficacy of DARCO products have already been prepared.

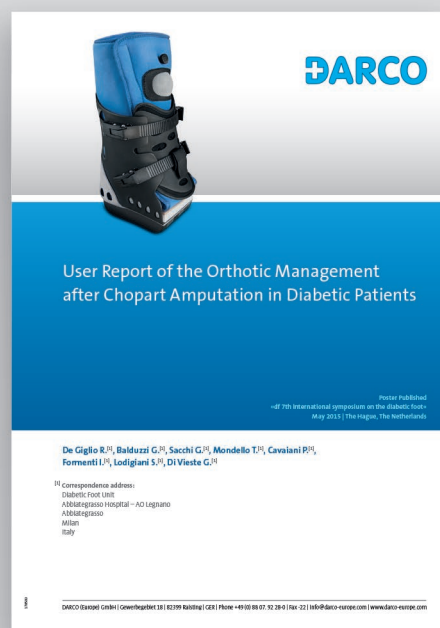

A very interesting one is the User Report of the Orthotic Management after Chopart Amputation in Diabetic Patients. We invite you to find out more about the scientific background by ordering this user report.

Save a limb and prolong life!

Foot problems are the most common long-term complication for those with diabetes. A (partial) foot amputation is certainly a last resort. Before that, all registers should be pulled to avoid later amputation. DARCO offers various products in its range to prevent and treat DFUs including therapy shoes, orthoses and insole systems. **DARCO's Body Armor® Pro Term** is an interim orthosis for use after Chopart and Lisfranc amputations. Load transmission to the proximal foot is ensured by the wedge-shaped outsole and inner sole. The robust cross-ankle shaft stabilises both the talocrural and the talocalcaneal joint. The incorporated adjustable air pads allow this orthotic device to be adapted to fully fit and support the foot stump. The ventral support tongue provides compression over an extended area thanks to the variable closure system.

The assembled orthosis can still be customised to meet individual patient needs. The two-piece insole, consisting of an EVA rope and an EVA/PE sole, is interchangeable or customisable as required. This product is available in two sizes M and L and designed for stump lengths of 16 cm and 19 cm respectively. The orthosis can be worn on the right or left side.

User Report of Body Armor® Pro Term

Please send an e-Mail to info@darco.in or contact us directly at our head office if you are interested in receiving the user report or detailed information about the Body Armor® Pro Term Foot Stump Orthosis.
